

STAY LOCAL FOR HEALTHCARE

Local Healthcare is ... Safe Care

Local healthcare is safe care. Dickinson Memorial Hospital has been **nationally recognized** with a safety grade of "A" which places your local community hospital in the top 31% of participating hospitals nationwide.

This single safety score is based upon 26 measures of publicly available hospital safety data, which represents a hospital's overall capacity to keep patients safe from infections, injuries, and medical and medication errors.

From "time out" in the operating room, to physician peer review, to patient advocacy efforts, everyone pays attention to your safety at Dickinson Memorial Hospital.

Safe care is right here.
